your Hair Restorative, as being the most efficacious article ever saw. Since using your Hair Restorative my hair and whiskers which were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING JULY 28TH, 1859.

TUBPENTINE-Since our last Thursday's review the receipts have been unusually small, owing mainly to the low stage heavy, sales of 19.600 bushels, yellow at 88 cts., mixed 78 a of the water courses, as little or none has been brought in |82 cts. Pork is heavy, Mess \$15 37 a \$15 50, Prime \$10 75 from above tide-way. There has existed a steady demand rom distillers, and the market closes firm at \$3 for virgin most, New Orleans 7 cts., Muscovado 5 a 6 cts. Coffee is and \$2 85 for yellow dip. But little hard is now arriving, The above Establishment will be sold, furnished as above and we therefore omit quotations in table below; it is genmentioned, on very accommodating terms-such as will suit erally taken at \$1 50. Rosin .- Since our review of this day week the market has ruled inactive for all grades, though we have no change I am under for the entire restoration of my hair to its origi. to report in prices. The receipts continue light, and there nal color; about the time of my arrival in the United States is only a small stock on market; dealers, however, are not disposed to operate, owing to the difficulty experienced in Norton's, Campbell's, Mrs. Sigourney's, Montgomery's, shipping, there being scarcely any vessels now in port, and | Gerald Massey's, Southey's, Mrs. Eliza Cook's, Longfellow's, the probability is that rates of freight will advance. and in 2 vols., Aurora Leigh's, Roger's Poetry of Flowers, Britthe probability is that rates of freight will advance, and the reby check transactions, especially in the Common artificial Poets, by Reed; Beranger's Lyrical Poems; the Heroes of the Last Luster; Trenche's, Amelia's Carolina Wood cle. > BEESWAX-Is in good demand, and sells quick at 27 to 28 cents per lb., as in quality. BARRELS .- Empty Spirits Turpentine barrels continue to be in moderate stock, and we quote merely a retail demand. In second hand ones we note small sales at \$1 50 a \$1 55 for 24,535..... lots as they run, and \$1 90 each for selected, 90 days.

COTTON .- The advices from Europe are considerably bet-

however, and scarcely any on market. One small lot sold

on Friday last at 97 and 117 cents per lb. CORN MEAL .- The supply on market is quite small, and we notice a brisk demand for retailing purposes. We quote place on the 4th of August. For particulars see adverat \$1 15 a \$1 20 per bushel.

FLOUR .- The recent unfavorable advices from Europe, together with those from home markets, have imparted conlar per bottle; the medium holds at least twenty per cent. siderable duliness to this article, and for the past three or four days the market here has been in a drooping condition. 500 BUSHELS PENNSYLVANIA OATS, now landing. prices. Receipts meagre, and only a light supply in store;

it is sufficient, however, for present demand. GRAIN-In the CORN market we have no important change to note on our remarks of Thursday last. There is only a ight supply in dealers hands, and a fair demand exists. A ot of 750 bushels superior quality was received from Onslow County on Tuesday last, and sold at \$1 05 % bushel; this igure, however, is above the market, and could not be obtained for another cargo. We quote at 95 cents to \$1 \$2 oushel, as in quality. P. S.—Received this morning 4,555 oushels, of which 3,655 came to dealers, and is going into store; balance unsold. OATS Are in brisk demand, and n the absence of receip s the stock on market has become materially reduced. A few cargoes would find ready sale at fair quotations. — PEAS - Have been in rather light request for some weeks past, and the supply in dealers hands is fully adequate for present wants. We quote at 871 to 90 cents # bushel .- RICE-No change in price; moderate supply in store, and only a light demand from the trade. We continue to quote at 44 a 44 cents # 1b.

HAY-There is a moderate supply on market, and demand light. Only 40 bales Northern received and sold at 67 cents per 100 lbs., cash.

LIME-The market is well supplied, and nothing doing except in the retail way. We quote from store at \$1 10 per

cask, in quantities to suit. MOLASSES-We have no change of importance to report in this article. There is a fair supply of Cuba in first hands, and demand limited. We quote from wharf and store at 24 a 26 cents per gallon.

POTATOES-Irish arrive slowly, and sell from carts at \$1

to \$1 25 per bushel. PROVISIONS-For N. C. cured Bacon the market continues to rule firm at former quotations, with a brisk demand for retailing purposes. The receipts continue exceedingly small for the season, and little or none remains unsold in first hands. During the week just ended we note the arrival per railroad of small parcels, and we hear of sales (some 3 a 4,-000 fbs.) at 111 cents for shoulders, 121 cents for hog round, and 14 cents # lb. for hams-a bright article selling readily at these figures. The receipts of Western cured have also been light, in consequence of which the stock in dealers hands has become somewhat reduced; there is, however, merely a retail enquiry, and the sales have been confined to small parcels from store at 81 a 82 cents for shoulders, and 101 a 101 cents & lb. for sides. LARD-Both N. C. and Western make are in light supply, and the market rules firm, with a fair demand from retailers. We quote the former at 121 to 131 cents, and the latter at 12 a 121 cents 18 lb., as in quality .--- Pork-Remains about the same as last reported. Northern is in light demand, and supply moderate. See

table for store prices. SALT .- We have no change of importance to report in the market for either description. There is only a light demand, and the market is very well supplied with both Liverpool ground and Alum; no receipts. We refer to quotations in table for store rates, as in quantity.

SHINGLES-Arrive slowly, and are in light demand. About 150,900 Common sold a few days since at \$2 50 \$ M. Contract are nominal at \$4 to \$5, as in quality. TIMBER,-There is a moderate demand from millers, but owing to the continued low stage of the water courses none

has been brought to market ;-a good article for mill purposes would find ready sale at fair prices. FREIGHTS.—Only two vessels have arrived during the week just ended, and scarcely any in port; owing to which fact the market for coastwise has ruled firmer, and in one instance an advance of 21 cents has been obtained on crude turpentine to New York. Corn.-There have been no arrivals of Corn during the past week, either by water or railroads, and we have consequently no cargo sales to report. Some 3,000 bushels of

Oats.-About 6,000 bushels Maryland received and been sold previous to arrival at 45 a 46 cents. Rice.—There was a fair demand for the article during the early part of the week, but as shipping facilities became scarce, and have almost entirely stopped, holders are not anxious to press sales, and, as we understood, have, in a great measure, withdrawn their stock, and the market, for the last two or three days, has been very quiet. We give former quotations for the sales made as ranging from \$34 a

Rough Rice—Only 4500 bushels received since our last and forwarded to the mills from first hands for pounding.
